WHAT WILL YOU CHOOSE?

95.5% OF USERS WITH PARKINSON'S DISEASE RECOMMEND ABBOTT DBS TO OTHERS† (N = 135)

• 2X as many patients preferred Abbott’s directional DBS to conventional DBS.**

• Doctors preferred Abbott’s directional stimulation for their patients, due to symptom relief and the ability to avoid side effects.†††

Doctors preferred Abbott’s directional stimulation for their patients, due to symptom relief and the ability to avoid side effects.†††

RECLAIM YOUR EVERYDAY.

The Abbott Infinity™ DBS System is designed to fit seamlessly into your life and help you reclaim your everyday activities.

OPTIMIZED CONTROL

Provides enhanced therapeutic control to help reduce side effects while maintaining effective treatment of symptoms.†

FREEDOM

Through a low-maintenance, recharge-free battery that saves you from the burden of daily recharging.

CONTROL OF YOUR EVERYDAY

Simplify your care to fit your life, with direct access to therapy from your personal smartphone,* and eliminate the need to carry a separate controller for therapy management.

UNLOCKED POTENTIAL FOR THE FUTURE

Featuring upgradable technology that can deliver the latest advancements as they are approved, via wireless software updates, such as magnetic resonance imaging (MRI) compatibility.

Visit Neuromodulation.Abbott/DBS to hear the stories of people who are using Abbott therapy to take control of their life.

EXPECT PROGRESS.

It may seem like the symptoms of movement disorders go in only one direction. Often, the symptoms result in less mobility and less control. But Abbott’s directional deep brain stimulation (DBS) therapy has helped people with Parkinson’s disease and essential tremor control these symptoms over time and live better, fuller, more active lives.

The Abbott Infinity™ DBS System features directional lead technology, which gives your doctor the ability to precisely target and tailor your therapy with more options, optimizing symptom control while limiting potential side effects.1-3

ASK YOUR DOCTOR HOW THE ABBOTT INFINITY DBS SYSTEM MAY HELP YOU.

Abbott’s DBS therapy is intended to move beyond the limits of other DBS systems and give you the freedom to live a life like you once lived, before movement disorder symptoms.

As a low-maintenance and recharge-free system, the Abbott Infinity™ DBS System gives you back time to do the things you enjoy most.**

3.5 ADDITIONAL 1-HOUR WORKOUT SESSIONS PER WEEK

15 EXTRA HOURS PER MONTH FOR LUNCH WITH FRIENDS

3 MORE WEEKEND-LONG TRIPS WITH FAMILY EVERY YEAR

YOUR HEALTH. YOUR LIFE.

Experience care that supports your health and fits your life. NeuroSphere™ Digital Care, only from Abbott, combines digital health tools and technology that help you manage your movement disorder therapy like never before.

ASK YOURSELF THESE QUESTIONS:

☐ How long does it take you to travel to your doctor?
☐ How often do you need to visit the doctor to keep your motor symptoms under control?
☐ Would you prefer to follow up with your doctor from the comfort of your home?

IF YOU NEED FOLLOW-UP CARE OR PROGRAMMING ADJUSTMENTS, NEUROSPHERE™ VIRTUAL CLINIC ALLOWS YOU THE OPTION TO CONNECT WITH YOUR DOCTOR REMOTELY TO MANAGE YOUR THERAPY WITHOUT NEEDING TO VISIT THE CLINIC.

“THAT’S THE ADVANTAGE OF THE INFINITY™ SYSTEM: GIVING US BETTER OPTIONS, MORE OPTIONS, AND BEING ABLE TO CUSTOMIZE MORE FOR THE PATIENT.”

— DR. RAJESH PAHWA
NEUROLOGIST
